LET'S GET STARTED

Supplying Your Artwork	33
How Can We Help?	34
Notes	35

IN-HOUSE PRINTING

By printing in-house, we're able to keep our quality high and our minimum order requirements low. We don't need to send your order out to be printed elsewhere - saving you money and eliminating unnecessary transport and carbon emissions. We further reduce the impact of our print studio by using water free print methods and solar power.

We offer three different printing options - Digital, Sublimation and Ultraviolet (UV) - offering a complete, complementary solution.

DIGITAL PRINTING

Using the latest Direct to Garment printers from market leader Brother, we are able to print single, multi colour and photographic designs directly onto our organic cotton. The result is vibrant with excellent washability - rated at 50 washes before there is significant print loss.

Digital printing allows for a large print area - approx. 50x40cm, so offers a close to the edge print option. There are no setup, art or screen fees and the cost of printing is the same regardless of the colours or detail in the design.

SUBLIMATION PRINTING

When you're after colour vibrancy, there's no better option than sublimation printing. Only possible on our microfibre and neoprene products, GOTS certified ink is converted to a gas at high heat and pressure. The result is a crisp, vibrant and permanent image that can be printed right to (and off), the edge.

Sublimation printing is considered one of the most sustainable forms of printing as the only waste product is paper - which is recycled. This is superior to screenprinting where there is a water (or even solvent), intensive clean up process. Similar to digital printing, there are no setup, art or screen fees and the cost of printing is the same regardless of the colours or detail in the design.

Talk to us about the best print process for your design!

ULTRAVIOLET (UV) PRINTING

Our latest addition are 2 state of the art UV printers, enabling us to print in-house superb, full colour on hard surfaces - including ceramic and timber coasters, magnets, plaques...and lots more.

UV printing cures inks instantly, eliminating energy intensive drying processes - reducing consumption and carbon emissions. UV ink is made from natural, renewable resources like soybeans, which are a sustainable alternative to traditional petroleum based inks.

AUSTRALIAN MADE

We're proud to be a partner of Australian Made. In addition to printing locally, we make locally too whenever possible. Look for the Australian Made logo in this guide to identify these products.

SUSTAINABILITY & ETHICS

Care for others and the environment has been a guiding principle of The Linen Press for 30 years. More than just a great product at a good price - made with minimal impact and a genuine consideration for the welfare of those we work with.

ORGANIC

Global Organic Textile Standard (GOTS), accredited cotton and ink means you can be assured of sustainability, quality and safety.

SOCIAL

Fully complying with workplace regulations locally and particularly overseas ensuring workers are not exploited and their rights are protected.

ETHICS

We seek to be your trusted business partners, working together building a mutually profitable long term relationship. If we make a mistake we own it and we fix it.

SOLAR POWER

In 2019, we added a 15KW solar system. Since then our print studio has been a net exporter of power back to the grid - sun powered printing!

TESTIMONIALS

CLIENT FEEDBACK

"When I first got in touch I felt like I had all my printing issues resolved from that very first phone call ...At every stage of the process, I have felt like a valued customer and nothing is ever too much trouble....I appreciate their dedication and attention to details to ensure my designs and ideas are fulfilled to their potential."

Jess McDonald

HIGH TEES

"I've been custom printing with BRANDED Ideas for a few years now, on their organic cotton range, and have always been very happy with the results. The cotton is of lovely quality and the colours are always well matched to the original artwork. Gordon, Derek and the team are all very friendly and are happy to answer questions, listen and advise you on your custom requests."

Ingrid Bartkowiak

INGRID BARTKOWIAK ART

"BRANDED Ideas is committed to a high quality-product, and manufacturing in Australia where possible. These values align with Paperbark Writer, hence our collaboration over the last few years. I have been very pleased with both the gorgeous results of printing my designs on the Linen Press Organic Cotton Range, and also the great service provided by Derek and Gordon."

Paula Peeters

PAPERBARK WRITER

"I'm so thankful for the opportunity to work together to produce top quality, GOTS certified, Australian products. Our values align to produce products that are really making a difference. BRANDED Ideas are professional and thoughtful about the products that they produce and think deeply about the way that the products will impact the world and the message sent by being used in everyday life. Core values such as faith and breathing words of truth into lives, appreciating the beauty and wonder of nature as well as taking good care of our planet and the health of everyone living on it."

Helen Boughen

ABOUT OUR COTTON

All our certified organic products meet the strict Global Organic Textile Standard (GOTS). Our factories are SA8000 accredited and audited. Together these certifications mean you can have confidence in the quality and safety of our products, and the protection of the rights of our workers.

Grown in both the tropical wet and dry climates of India, our certified organic cotton begins as tiny seedlings maturing to tall stalks with yellow flowers. The flower heads quickly turn red, fall off and leave behind a green pod - the humble beginnings of our cotton ball. The ball begins to grow and swell as new fibres lengthen and thicken within the pod. In around ten weeks, a creamy fluffy cotton ball pushes forth.

The cotton is harvested and spun into balls of luxuriously soft yarn, dyed only with eco-friendly inks, meeting organic standards. It is woven into yards of fabric, then cut and sewn into our range of products.

These cotton products are shipped to us in Melbourne, Australia where we work with some of Australia's finest and emerging artists, cultural institutions, tourist attractions, companies and retailers to create unique designs. These are individually printed in our studio onto tea towels, tote bags, aprons and more!

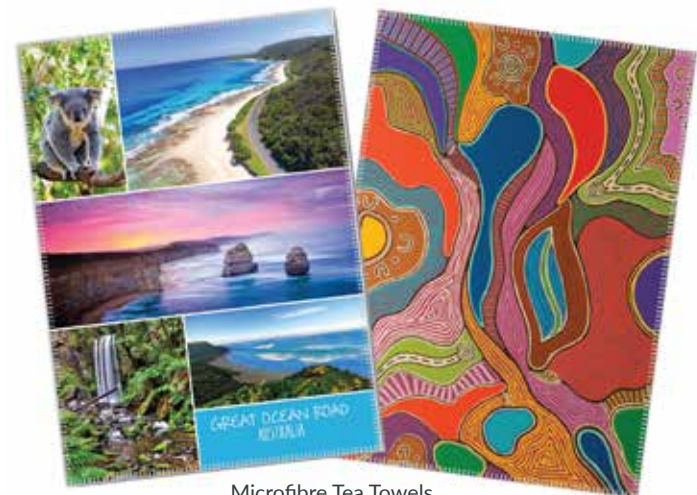

TEA TOWELS

Always one of our best sellers, we offer both organic cotton and microfibre tea towels. Beautifully printed in our Melbourne print studio with a minimum of just 30 per design!

& MORE...

With an extensive product sourcing and development network here in Australia as well as in Asia, whatever you have in mind, we can help! Talk to us about your ideas and together we'll make it happen.

SUPPLYING YOUR ARTWORK

QUALITY MATTERS!

We've built our reputation on quality, and want to deliver you a product you'll be as proud of as we are.

As we are often printing a large area, quality art supplied at high resolution is essential.

FILE TYPES

Logos and graphic designs - vector art is preferred, with text converted to outlines. AI, EPS, PSD and high res PDF and JPG files are all acceptable.

Illustrations & photo images - please supply the highest resolution file you have available - PDF, JPG and PNG files are all acceptable with sufficient resolution.

IT'S ALWAYS YOUR ART!

We value you trusting us with your art, logo or ideas. We know how much they mean to you - it's yours and will never be sold or offered to anyone else!

We will always supply you with a positional proof to approve before we print!

HOW CAN WE HELP?

“We have a combined 50+ years experience... and would love to help with your custom
